## Mission Statement

St. John's Episcopal School instills a love of learning and a pursuit of excellence in a Christian atmosphere in which all students are honored.

## Statement of Philosophy

The philosophy of St. John's Episcopal School is embodied in the statement that we intend to equip children for a life of maturity which will enable them as whole persons to contribute to society. An education which serves that end has spiritual, intellectual, physical, and social dimensions.

As we are a Christian institution, we believe we must present children with the relationship between reason and revelation, a sacramental understanding of the universe, and a compassionate concept of that kind of human solidarity which erases the barriers of human divisions.

We understand that our primary task is to engender in the students a love of learning and a desire for the pursuit of excellence.
